Samalkota, Kakinada District, Andhra Pradesh, India – 533440

Summary

AI & ML undergraduate with hands-on experience in Python, machine learning, and agentic AI systems. Built multi-agent AI applications and Flutter mobile apps with strong problem-solving skills demonstrated through 600+ coding problems solved. Interested in developing intelligent systems and real-world AI applications.

Technical Skills

Programming Languages: Python, Java, C, C++, Dart, SQL
Machine Learning & AI: Supervised/Unsupervised Learning, Multi-Agent Frameworks, Gemini API
App Development: Flutter (State Management, UI/UX), Firebase Realtime Database
Tools & Databases: Git, GitHub, VS Code, Docker, MySQL, MongoDB
Core Strengths: Data Structures & Algorithms, Problem Solving, Team Collaboration

Experience

Technical Hub Pvt. Ltd. May 2025 – June 2025
Flutter Developer Intern Surampalem, AP

- Developed mobile applications using Dart, implementing widget structures, navigation, and routing.
- Applied Material Design principles to build responsive and user-friendly UI for various screen sizes.
- Strengthened understanding of state management and mobile app architecture in a professional environment.

Projects

AgriSense – IoT + AI Smart Farming Application | *Flutter, ESP32, Firebase, Gemini API*

- Developed a real-time smart farming app integrating ESP32 sensor data for live farm monitoring.
- Integrated OpenWeatherMap API and Gemini 2.5 Flash AI to provide predictive weather insights and crop recommendations based on soil/climate data.

Multi-Agent AI System | *Python, Gemini API, Docker*

- Developed a multi-agent framework featuring Researcher, Writer, and Critic agents for complex task automation.
- Built an orchestrator for agent coordination, task routing, and implemented shared memory for inter-agent communication.
- Designed a modular architecture with structured logging for scalability and debugging.

Humoji - Mood-Based Music Player | *Flutter, Dart, UI/UX Design*

- Built a Flutter application that maps emojis to mood-based song recommendations using local audio playback.
- Implemented localization support for 4 languages to improve accessibility and user engagement.

Achievements

- **Competitive Programming:** Solved 470+ problems on CodeChef, 200+ on LeetCode, and achieved 5-star in C and Java on HackerRank.
- **Prize Winner:** Poster Presentation at Veda 2k24, Aditya Educational Institutions.

Certifications

- Java Programming – NPTEL (IIT Kharagpur) & Infosys Springboard
- Machine Learning & Database/SQL – Infosys Springboard
- C Programming – Spoken Tutorial
- IoT Workshop – Hands-on Arduino, sensors, and real-time data applications

Education

Aditya Engineering College 2023 – 2027
Bachelor of Technology in AI & ML (CGPA: 8.75) Surampalem, AP

Pragathi Vidyalaya Junior College 2021 – 2023
Intermediate (MPC) (CGPA: 9.54) Peddapuram, AP
